About me

- ❖ As a Computer Science undergraduate at Gayatri Vidya Parishad seeking a Software Developer Intern . Passionate about building web and mobile applications and continuously learning new technologies. Currently exploring Artificial Intelligence and Machine Learning through practical projects.
- ❖ With a strong foundation in programming languages such as Python, Java, HTML and CSS, I have applied my technical knowledge to develop web applications, implement algorithms, and create interactive user experiences.
- ❖ Eager to contribute to real-world software development while strengthening my technical and problem-solving skills.

Education

- | | |
|--|--|
| ❖ Gayatri Vidya Parishad College For Degree And P.G. Courses
COMPUTER SCIENCE AND ENGINEERING, B.TECH
CGPA: 8.17 | Rushikonda, Visakhapatnam 530045
2023 - Present |
| ❖ Sri Chaitanya Junior College
MPC Intermediate
Percentage: 95.1% | Complex, Visakhapatnam
2021 - 2023 |
| ❖ Sri Chaitanya Techno School
Degree in SSC
Percentage: 100% | Asilemetta, Ramnagar, Visakhapatnam
2021 |

Projects

Relief route - Disaster Assistance & Resource Coordination Web Application

Git : [link](#)

Technologies used : HTML , CSS , JavaScript , Flask , SQL

- Developed a disaster relief web application to help users locate **optimized and safe routes** during emergency situations.
- Implemented a **route optimization system** to identify the **shortest and safest paths** for transportation of relief materials.
- Designed modules for **fleet management, risk identification, and resource coordination**.
- Integrated a **food donation feature** allowing users to contribute and track relief resources during disasters.

HerDefence – Smart Women Safety Web Application

Technologies used : HTML, CSS, JavaScript

- Built a prototype safety application aimed at enhancing personal security for women during emergencies.
- Implemented secret keyword activation to discreetly trigger emergency alerts.
- Developed tampering detection mode to notify contacts if the device is forcibly accessed.

- Added gesture-based triggers such as shake detection and tap patterns to quickly activate safety alerts.

Technical Skills

❖	Programming Languages	:	Java , Python , C , C++
❖	Web Technologies	:	HTML , CSS
❖	Backend development	:	Flask (Team Collaboration)
❖	Tools / Platforms	:	VS Code , GitHub
❖	Databases	:	MySQL

Certifications

- AWS Solutions Architecture Job Simulation - [Forage](#)
- OCI Certified DevOps professional - [Oracle](#)
- OCI Certified Foundations Associate - [Oracle](#)
- Data Analytics Job Simulation - Deloitte
- Joy of Computing using Python - [NPTEL](#)
- Google Sprint 2k25 – [The Anantha](#)
- Mind Sprint 2k25 National Hackathon - [BrainoVision](#)

Honors & Awards

- ❖ Earned Oracle OCI DevOps Professional and Foundation Associate Certifications.
- ❖ Recognized for successful completion of Deloitte Data Analytics Job Simulation (Virtual Experience).
- ❖ Participated in National Level Hackathon issued by PSRCMR (Brainovision).
- ❖ Hackathon Participant in Google TechSprint – Developed a prototype application during a 24-hour coding competition.
- ❖ Awarded Elite Badge for successfully completing the Joy of Computing Using Python course through the NPTEL certification exam.
